OBJECTIVE

I am interested in working as a Full-stack Developer contributing to the development of scalable applications.

ACADEMIC EDUCATION

Currently in my 3rd year of a Bachelor's degree in Computer and Telecommunications Engineering at Polytechnic University.

PROFESSIONAL EXPERIENCE

Start year:
2025

Python Developer (Volunteer)
Betr Beta — Remote
March 2025 – April 2025

- Acted as a volunteer in data analysis and technical support tasks using Python.
- Developed notebooks on Google Colab for data analysis and visualization according to internal demands.
- Handled datasets provided by the team, generating insights to support decision-making.
- Helped create and maintain dashboards and simple internal reports.

Start year:
2022

IT Support Apprentice – Pedagogical University
February 2022 - March 2022 | Maputo, Mozambique

- Assisted in maintaining the university's computer network and troubleshooting connectivity issues.
- Provided technical support to students and faculty, resolving software and hardware problems.
- Supported software installations, system updates and basic network configurations.
- Gained hands-on experience in networking and software development support.
